

PIM The Intelligent Terminal Controller

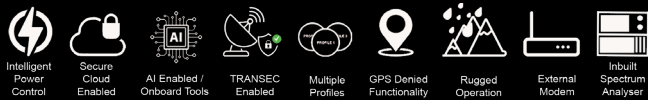

The Paradigm Interface Module (PIM) is an intelligent terminal controller that is compatible with terminals over a range of aperture sizes, frequency bands and RF types.

Parabolic or flat panel, fixed or on the move, motorized or manual, examples of aperture sizes compatible with the PIM include 0.45m, 0.6m, 0.8m, 1m, 1.3m, 1.5m, 1.8m, 2.4m.

Use the PIM as part of a single employment strategy to simplify your deployment's logistics, sustainment and maintenance.

Switch PIM to switch modems - retrofit your terminal with zero hassle.

The PIM - Common UX across all terminals.

The World's Most Advanced Satcom,
Made Simple.

ANY MODEM, ANY FREQUENCY, ANY TERMINAL

Intelligent terminal controller

Compatible with any terminal (AA or Manual)

Select your IP configurations direct from the screen

Access world class technology at a fraction of the price of a new terminal

Use the PIM as part of a single employment strategy

Simplify your logistics, sustainment and maintenance

No need for a laptop - inbuilt pointing and M&C direct from the PIM screen

AI Enabled, Secure Cloud Enabled, Future Proof

THE SAME USER EXPERIENCE
