

### Multiband Terminal Any Modem Any Satellite

- Any modem supported  
Models include 950/1050/5650
- High speed flat-panel multiband terminal (Mil-Ka, Ka, Ku)
- Unrivalled SWaP vs performance
- Rapid tool-free setup, on air <5 mins
- Field-changeable RF head panels
- Military-proven ruggedness
- Airline carry-on: backpack / single case (IATA compliant)
- FIPS 140-2 Level 3 TRANSEC security

### THE WORLD'S MOST ADVANCED SATCOM, **MADE SIMPLE**

- Simple AI-assisted terminal pointing
- Seamless automatic power-switching with integrated AC/DC input options
- Low power consumption
- Ruggedized touch screen; day/night/blackout modes and glove operation
- Simple switching between modem profiles and hardware configurations
- Supports Auto/Manual/External GPS (USB)
- In-built Spectrum Analyzer

- Fully integrated terminal controller
- Easy satellite selection, any constellation, any band, anywhere
- Network diversity from an extensive satellite database
- Seamless, one-button configuration switching:
  - Internal modem configuration, including GX / Velocity / Evolution / Flex and others
  - Select between predefined Mission Profiles
  - All link parameters fully customizable through the PIM
  - Set presets at base for easy selection in the field
- Support for external modem operation, maintaining simple AI-assisted terminal pointing
- Secure by design offering FIPS 140-2 Level 3 TRANSEC and anti-tamper device locking
- Multiple, integrated power input modules
- IP67 rated, MIL-STD-810G for vibration, shock, salt fog, sand & dust, humidity and driving rain
- Alternate geolocation input options, including Auto (GNSS), Manual and External GPS (USB)
- Automatic dataport VLAN profiling with optional Wi-Fi connectivity
- Real-time local and/or remote configuration management (optional secure cloud service)
