

SECURE, UNINTERRUPTED CONNECTIVITY FOR FINANCIAL SERVICES

In an era where financial operations demand constant connectivity, Avanti's satellite-enabled solution is transforming how financial services navigate infrastructural and power challenges. This forward-thinking approach guarantees secure, reliable, and seamless connectivity, specifically designed for financial institutions faced with the vulnerabilities of unstable power grids and terrestrial infrastructure dependencies.

Addressing Connectivity Challenges Head-On

Financial institutions in South Africa and beyond grapple with critical connectivity barriers:

- Unstable power grids and infrastructure vulnerabilities.
- High dependence on fibre networks susceptible to power disruptions.
- Increased risks from natural disasters, undersea cable breaks and grid failure affecting the financial transaction continuity.

These challenges severely impact operational efficiency, security, and resilience, posing a significant threat to the financial sector's continuity and reliability.

Branch and ATM Always On

Providing resilient and secure secondary satellite links to support critical enterprise applications in the event of primary network failure.

Bank On Resilience

Enabling secure access to vital information in the wake of national emergencies or natural disasters.

Introducing Multi-Orbit Satellite Technology

Avanti Financial Services Solution combines Geostationary Orbit (GEO) and Low Earth Orbit (LEO) satellite technologies.

Supported by a dedicated Network Operating Centre, Avanti guarantees unmatched uptime and reliability, securing the lifeline of financial operations.

This hybrid approach ensures:

- **High throughput** for financial transaction backhaul.
- **Reliable connectivity** for branches and ATMs in even the most remote areas.
- **Dynamic bandwidth allocation, automatic failover, and on-demand scalability.**

Transformative Benefits for Financial Operations

Embrace the robust, scalable, and secure satellite solutions designed to strengthen your financial transactions against any disruption.
